- Tamil
- English

PROFILE

PHP and .NET Web Developer with 3 years of experience in developing dynamic web applications. Skilled in backend development, API integration, and database handling using MySQL and SQL Server. Experienced in building CMS, CRM, and e-commerce systems with a focus on performance, scalability, and clean, maintainable code.

WORK EXPERIENCE

Daivel Universal Software Solution
(**The KTM Jewellery Limited**)   04/2022 -06/2025

Senior Software Developer

- Web Application - Daivel Task

  Developed Daivel Task, a web app for managing employee tasks and tracking efficiency. It allows task assignment, progress monitoring, and performance insights to ensure timely and efficient work completion.

- Inventory Software - Namma Ooru Trend(NOT)

  Developed NOT an Inventory Software, an app where users can browse, review, and purchase dresses and t-shirts, offering a seamless shopping experience.

- CRM- The KTM Jewellery Limited & The Chennai Silks
  Developed a CRM system to streamline customer interactions, manage sales, and improve communication for better customer relationships and more efficient sales processes.

- Web Application - Oceansapphire

  Developed a billing software that enables product sales and billing, manages invoices from multiple branches, and allows entry of new stock for efficient inventory and transaction handling.

- Centralized Database- The KTM Jewellery Limited

  Developed a centralized chit database by integrating 11 branch databases, enabling customers to close their chits from any branch, improving convenience and accessibility.

- ReTag- Oceansapphire

  Developed a re-tag print feature for Oceansapphire(Diamond) software, integrating QR codes to scan products and display detailed product information efficiently.

- WebSite- The Chennai Silks
  Developed a responsive website for The Chennai Silks, showcasing their textile collections with features like product categories, promotional banners, store locator, and enquiry form, optimized for both desktop and mobile

Amphenol Omni Connect   03/2020-05/2022

Designing Engineer

  Worked as a Designing Engineer, focusing on preparing circuit diagrams and developing sample wiring harness parts tailored to customer requirements.

CERTIFICATION

MERN Stack Developer Certification The Apex Institute – Completed

[June, 2025]

Gained hands-on experience in building full-stack web applications using MongoDB, Express.js, React, and Node.js. Developed real-time, RESTful, and scalable web apps as part of the training.

PROFESSIONAL STRENGTHS

- Proficient in web development using PHP, .NET, and SQL Server.
- Strong understanding of backend integration, API communication, and database optimization.
- Experienced in building responsive, user-centric, and scalable web applications.
- Skilled in problem-solving, system debugging, and automating processes.
- Capable of working independently and collaboratively in fast-paced environments.

CAREER GOAL

- Proficient in web development using PHP, .NET, and SQL Server.
- To contribute to innovative projects that solve real-world problems.
- To continuously enhance technical skills by exploring modern frameworks and emerging technologies.
- To take on leadership responsibilities and mentor junior developers in future roles.

SUMMARY

A dedicated Web Developer with 3 years of hands-on experience in designing and developing dynamic, high-performance web applications using PHP and .NET. Adept in backend integration, database management, and building scalable solutions that meet user needs. Known for clean code practices, automation, and a focus on continuous learning.
